Student Attendance, Progression and Behaviour

Attendance at scheduled classes is vital to ensure students gain the maximum benefits from their training and meets the attendance requirements of their course. Students must notify their trainer (or the administration team) if they are unable to attend a training session for any reason. Students who do not maintain 80% attendance may be withdrawn from their course. We want to give all students the best opportunity to successfully complete their course, and class attendance plays an important part of course completion. Students who do not maintain the 80% attendance requirement, without a medical certificate, may be withdrawn and have to re-enrol (fee associated) and commence again in another course. Medical certificates **must** be supplied.

Students must maintain regular progression by submitting completed assessments on a regular basis. All students are given a timeline of the due dates for each unit assessment and you must keep up with completing assessments when they are due. Students who do not submit assessments by the due date, without a medical certificate, may be withdrawn and have to re-enrol (fee associated). Medical certificates **must** be supplied.

Students are required to behave in a respectful and appropriate manner at all times. Student must also follow all NIET rules and instructions from NIET staff, act in a non-discriminatory manner at all times, and respect the rights of other students, staff and visitors.

All nationally recognised AQF qualifications, skill sets, and stand-alone units of competency use the NRT logo in accordance with the use of condition 4 and are issued with a certificate, statement of results and statement of attainment respectively as applicable on successful completion of the required course.

All non-accredited training courses that are offered by NIET clearly distinguish them separately to the nationally recognised courses are issued with a certificate of attendance or certificate of participation as applicable.

Training Evaluation

NIET values feedback and encourages students to bring any issues of concern to the attention of appropriate staff as soon as possible. NIET provides student feedback forms in the common areas of the campus and students are encouraged to complete these forms.

Students who enrol into a qualification course will be asked to complete course feedback form. This allows NIET to gain feedback from students regarding their course.

All students completing a qualification are asked to complete an AQTF Learner Questionnaire upon completion of their course, which is submitted to a regulatory body. This evaluation requests feedback across a range of aspects including course content, course delivery, course assessment, staff, facilities and resources.

Course Information

NIET offers nationally recognised AQF training courses as stated on its scope of registration and also offers non-accredited training courses. Visit the NIET website to see the full range of courses and programs offered.

All fees or a payment plan must be setup, two weeks before the course commences to gain your place in the course. An individual Statement of Fees is provided at the Pre-Training Review; and can also be accessed on NIET's website.

Pre-Training Review

All students undertake a Pre-Training Review, as this ensures you are well informed of the training course you are interested in and complete a Language, Literacy and Numeracy assessment to determine your course suitability. NIET wants to ensure that all students have a positive training experience and receive additional support if required, and this is identified during the Pre-Training Review. During the Pre-Training Review the following will be covered by making sure potential students are given full information prior to enrolling:

1.1 Sharing student data with third parties

In some cases, NIET may be required to provide personal information to third parties. Third parties may include:

Academic Misconduct

The following information provides a guideline for staff and students for ensuring that appropriate action is taken in regard to plagiarism, cheating and other forms of academic misconduct.

Definitions

Plagiarism

Is the act of presenting another person's work as your own, and failing to acknowledge that the thought, ideas or writings are of another person, it occurs when:

- other people's work and/or ideas are paraphrased and presented without a reference
- another student's work is copied or partly copied
- phrases and passages are used verbatim without quotation marks and/or without a reference to the author

Plagiarism is a considered academic dishonesty and is a form of cheating.

Cheating

To act dishonestly or unfairly in connection to an assessment.

Assessments are generally only given to student/s only when they have successfully attended and completed the required training from their respective course trainer/assessor.

Collusion

Students must ensure that they are not working together to intentionally gain an unfair advantage in their assessment or any task that they are required to complete on their own. All assessments submitted should be your own work.

Actions to prevent plagiarism and cheating

All assessments include a declaration that is signed by the student to certify that no part of the assessment has been copied from another person's work (and that no part of the assessment has been written for them by another person).

Monitoring and Identification of Plagiarism and/or Cheating

Trainers assessors are required to undertake checks of students work for any plagiarised content or cheating that has occurred. Identifying plagiarism and cheating may include but is not limited to tasks such as:

- Checking quotes and references listed in the body of work
- Conducting a general internet search on the topic of the assessment
- Cross referencing work with other students' assessments for the same unit
- Inconsistencies in the way work is written.

When plagiarism or cheating is suspected the trainer assessor is required to discuss the matter with the student. The trainer assessor is required to clearly identify the passages or content which are alleged to be plagiarised.

This evidence is to be taken to the CEO. To decide if the occurrence was intentional or unintentional, the CEO will give the student(s) an opportunity to respond by having a meeting to discuss the plagiarism or cheating matter. The student is to be informed of the following penalties that may be applied if plagiarism and/or cheating has occurred:

- the student may be suspended from undertaking the course for a period of time
- the student may be permanently removed from the course and their enrolment cancelled
- the student may be counselled on plagiarism/cheating
- resubmission of assessment.

The CEO uses their discretion in imposing a sanction for any confirmed cheating or plagiarism act that is appropriate to the offence. The student will receive written notification of the decision.

If the student does not agree with the RTO's decision, then they are able to submit a complaint and/or appeal to have the matter reviewed. This is to be submitted within 10 working days of the decision.

Complaints and Appeals

NIET ensures that all complaints and appeals are dealt with in accordance with the principles of natural justice and procedural fairness at every stage of the complaint and appeal process. Staff handling complaints will treat the complaint as confidential and respect all parties. No complainant will be disadvantaged in any way, including students who continue with their studies.

NIET will aim to complete all complaints and appeals within a reasonable timeframe, usually within 14 days after lodgement of a complaint (with ongoing notification and in writing to the person/s who made the complaint, should the complaint take longer than expected)

Informal Complaints/Appeals

An individual may submit an informal complaint/appeal form in writing or verbally directly to NIET staff. The delegated staff member handling the complaint/appeal will endeavour to gather all information from all parties involved with the intention of coming to a mutual resolution/desired outcome. All outcomes of the review shall be reported back to the individual within ten days. This may be a verbal discussion or put in writing if required. If further meetings are required, individuals may be accompanied by a third party. If the matter is not resolved by mutual agreement, the complainant will be required to complete the formal complaints process.

Formal Complaints/Appeals

Individuals need to submit a complaint/appeal form to NIET's CEO. Persons may elect not to use the first informal stage and lodge a written complaint/appeal. Upon receiving the complaint/appeal, NIET will respond in writing within 14 days. This may include a proposed resolution. Parties may be required to meet in person to discuss the complaint/appeal – and the individual who has submitted the form may be accompanied by a third party. If the complaint involves a student, NIET may request that the trainer assessor or lead trainer be present. Where the complaint/appeal requires more than thirty days to process, finalise and resolve, NIET will inform the individual in writing with the reasoning.

Independent Resolution

The complainant must advise in writing of their dissatisfaction of NIET's decision within 14 days of NIET's decision with a desire for an independent/impartial party to review. After 14 days the complaint/appeal will be closed. NIET will organise the impartial party within 10 days and impartial services will be at no cost to the student. Both parties must agree to participate in good faith and a willingness to find a resolution. Impartial parties may be required to meet with all involved, where individuals may bring with them an additional support person. The decision of the independent review will be taken as final by both parties and report to the NIET CEO and the individual in writing, with immediate action to be taken.
