

WE ARE THE TRAINING EXPERTS!

VU22962/22558VIC Course in supporting people with disability to use medications

If you are a disability support worker or working in community care, this accredited skill set will teach you how to support people with disability to use medication.

Through a flexible and supportive classroom-based learning environment, you will develop the confidence and skills needed to support people use medications. We provide a warm and welcoming environment, where all our trainers are caring and dynamic with extensive industry experience. NIET is a highly reputable and established organisation that focuses on delivering quality training to its students.

The course requires one day of attendance in class and approximately eight hours of pre-course work. The pre-course work **must** be completed before attending the class and requires reading of a Learner Guide and answering various theory questions, applying the information you have read in the Learner Guide.

Skills you will learn in the training include:

- Interpreting medication charts and treatment sheets
- Checking dosage requirements
- Supporting the client to use medication
- Completing the required documentation
- Procedures for medication errors and allergic reactions
- Procedures for infection control, hygiene and safety
